Professional Summary

Results-oriented tech professional with a background in network surveillance, data analytics, and bot/web development, now transitioning into data science and SharePoint development. Experienced in building custom bots, reconciling large datasets, and delivering real-time insights through advanced Excel models and Python-based analytics. A strong communicator with a creative mindset and hands-on experience in both traditional telecom systems and modern web/data technologies.

Technical Skills

Programming & Data Science: Python, Pandas, NumPy, SQL, Scikit-learn, Machine Learning, Data Cleaning & Reconciliation

Data Tools: Advanced Excel (VLOOKUP, PivotTables, Power Query), Power BI, Jupyter Notebook

Web & Bots: HTML/CSS, JavaScript, Telegram Bot API, Flask

Version Control & Platforms: GitHub, VS Code, API integration

Networking: CCNA Certified, Cisco Tools, Network Monitoring

Enterprise Tech: SharePoint Developer (in progress), Web3 basics, ZK-Provers (Ubuntu)

Projects

- Token Price Tracker Bot: Telegram bot that posts real-time token prices using API integrations.
- AI Sports Prediction Bots: Built models using historical data to predict football and basketball outcomes.
- Trading Bot (Low-Risk Strategy): Developed a bot that uses exchange API keys to execute trades with configurable risk settings. Supports major tokens (BTC, ETH, ADA, etc.).
- Personal & Portfolio Websites: Built multiple responsive websites showcasing web and data projects.
- Data Reconciliation Tool: Script to clean and match large Excel/CSV datasets using Python.
- ZK Prover Deployment: Running Zero-Knowledge Provers on Ubuntu for blockchain experimentation.

Work Experience

Network Surveillance Analyst

IHS Towers – Nigeria | 2015 – 2024

- Monitored over 2000+ telecom nodes and resolved outages under SLA constraints
- Reconciled network performance data to produce incident and uptime reports
- Collaborated with field teams and NOC to ensure 24/7 service continuity

Network Surveillance Specialist

BJ Bison / MTN Nigeria | 2014 – 2015

- First-line support for MTN cell sites, escalating alarms and dispatch coordination

Direct Sales Agent

First City Monument Bank | 2013 – 2014

NYSC Mathematics Teacher

Faith Comprehensive Int'l School | 2011 – 2012

Education & Certifications

B.Sc. Mathematics (Comp. Science & Stats option)

Ekiti State University, Ado Ekiti – 2005–2010

- Data Science with Python – IBM (Coursera)
- Advanced Data Analysis – Dbrown Consulting
- Data Analytics Essentials – Cisco
- CCNA – New Horizons
- SharePoint Development & Web3 Foundations – In Progress

Languages

English – Fluent

Yoruba – Fluent
